TRIPLE MURDERER TOMPKINS HAS CONFESSED HIS ATROCIOUS CRIME

Prisoner Makes Clean Breast Of The Whole Affair But Authorities Will Not Divulge Motive For Crime

DEFENSE OF INSANITY IS EXPECTED

Johnstown, July 19.—George Tompkins, Jr., today confessed to the murder of Edmand Humphries, Mrs. Humphries and their son at Carrolltown, Sunday morning. He confessed in the presence of Attorney John Evans, his counsel. The prisoner made a clean breast of the entire affair. Jail keeper Knee also heard the confession. The accused man told how he had purchased the revolver and how he committed the triple murder, but these things have not been divulged by the officials.

Mrs. Tompkins, wife of the confessed murderer, was told of the confession at noon. She is in a state of collapse. It was intimated that the defense will plead insanity when Tompkins is arranged in September. It is said at the jail that Tompkins admitted purchasing the gun with which the murder was committed. He said he was in Johnstown Tuesday, July 10, and purchased the weapon. Rev. Heany, pastor of the Ebensburg Presbyterian church, went to the county jail shortly after noon and spent some time with him.

CORRECTIONS

Those who have the sheets showing registered men will kindly make the following corrections: All numbers from 789 to 1004 are Curwensville registrants. 788 alone is Blandburg. 1029 is A. R. Hinkle instead of A. R. Himes.

Be Careful About Your Flour Storage

Buy flour in small quantities and protect it carefully from spoilage, is the keynote of a suggestion from the United States department of agriculture.

Sound flour milled from standard wheat exhibits very little tendency to decompose when stored in a proper manner. Nevertheless, there is considerable loss of flour through spoilage as a result of improper storage particularly during the summer months. Flour dealers naturally have to carry in storage an amount of flour proportionate to the current needs of their trade. Housekeepers on the farm and in the city should purchase flour in accordance with their needs only. It is false economy for the particularly during the summer housekeeper to purchase any larger amounts of flour than can be used within a reasonable length of time. This may be a barrel for a large family; more often it will be the 50-pound sack. Any storage of flour in excess of the consumer's needs constitutes hoarding which, under the present circumstances, is an unethical and reprehensible practice, of no profit to the individual who practices it, but injuries to the best interests of the people.

Since it is the duty of everyone in the present situation particularly to avoid all waste, it is incumbent upon each one to store the normal stock of flour so to eliminate all waste whatsoever. The precautions that are required have been well worked out in practice and are stated as follows by specialists in the department of agriculture.

There are three cardinal principles of flour storage. Flour should not be stored in the cellar, since the cellar is rarely free from dampness, even though special flour bins have been built in. It is common to find odors in a cellar and flour absorbs odors and is contaminated by them. The cellar is cool, but is usually too damp. Flour should not be stored in the attic of the usual type. The temperature is too high in summer, there is no circulation of air, and the flour is likely to acquire a musty odor. Flour should not be stored in the pantry or kitchen

except in small quantities since the temperature is certain to be uneven and the flour is likely to be contaminated by odors.

If practicable every household should possess a small room for storage of non-odorous commodities. Such a room is best located on the north side of the building. It should be ventilated and a cool and even temperature should be maintained. Where such a room is not available a closet may fit the requirements well. The bins or containers should be kept clean, and when an old stock of flour is exhausted the container should be carefully cleaned before a new stock is placed.

Naturally the flour must be guarded from vermin. Flour should be examined occasionally to see that decomposition has not begun. Conserved in this manner, the sack of flour in the household and the larger stores of the retailer can be utilized practically to the exclusion of any waste through spoilage.

NO FEAR FOR DEMOCRACY

Senator Hiram Johnson of California sees no peril to our democracy in granting at this time autocratic powers to the President for the conduct of the war. He believes the people will be quick to resent any abuse of the powers conferred by Congress, and for that reason the Administration will exercise its great authority with the strictest care. "A real democracy sure of itself," asserts Senator Johnson, "may in safety centralize its power for its own protection." In Mr. Hoover the Senator believes we have a man peculiarly fitted for the position of food administrator. He has already distinguished himself as a world figure, and he has, to use the words of Mr. Johnson, "been striving for humanity with an altruism that challenges the admiration and affection of us all."

Wagon Loading To Be Stopped Again

Cars Needed By Railroads Is The Reason Advanced To End It

"Wagon loading" of coal has been stopped on the B. & P. railroad for the present at least. An order went forth Tuesday morning from Superintendent of Car Service Burns at Rochester, N. Y., to the superintendents of the various divisions, instructing them to place no more cars at this time at sidings where coal had to be loaded from wagons.

The order went into effect Tuesday and caused widespread consternation among the wagon loaders of this section. The Hocking Valley railroad has placed a permanent order into effect barring wagon loading and it is understood that several other roads contemplate a similar move.

The order is not a permanent one, but it is liable to become so. An official of the road stated yesterday morning that he could not say for what period the order would be in effect. The Commission on car service sitting at Washington, is now considering the complete abolishment of loading coal from wagons and it may be that before the B. & P. order is rescinded orders prohibiting wagon loading on all railroads will be issued.

The B. & P. Ry., as well as all other railroads, needs its cars at the present time," said an official of the company today. "Placing a car on a siding for wagon loading ties up the car from one and a half to five days, and this is a great hindrance to the moving of traffic. Cars are badly needed, and it is probable that this order will remain in effect until the demand for cars slackens. No railroad can secure the maximum of service from its cars by allowing them to remain on sidings for two and three days at a time, and this is a time when every hour counts."

The order will result in a great hardship for many coal operators in this locality. The boom in coal prices opened up many new mines in this locality. With coal selling at five and six dollars a ton a haul of two or three miles from a mine to a siding could be made and the producer still make a handsome profit.

Whether or not the order will reduce production in this section remains to be demonstrated. The operators leading at tipple maintain that it will result in an increased production for the reason that the mines at which coal is loaded by tipple will be able to secure more cars.

CANNED TOMATO SAUCE OR PUREE

Since tomatoes contain a very high percentage of water, it often is desirable to can only concentrated tomato products. This is true especially when cans or jars are difficult to obtain. A delicious concentrated tomato sauce may be made and canned for use in a variety of ways. Small or broken tomatoes and large tomatoes unsuitable for canning whole, may be used in this recipe.

Cut the tomatoes into fairly small pieces and add one large-sized onion chopped and one cup chopped sweet red pepper to one gallon tomatoes. Cook until tender. Put through a sieve and add a mixture of 1-3 salt and 2-3 sugar in a proportion of one teaspoonful to each quart of the mixture. Cook until the consistency of ketchup, stirring constantly. Pack hot into sterilized jars or bottles. Adjust rubber and cap—place the containers on a false bottom in a vessel of water sufficiently deep to reach almost to their tops and allow to remain at a boiling temperature for 25 minutes. Remove jars from the water bath and tighten the lids immediately.

QUIET IN PETROGRAD

(By United Press.) Petrograd, July 18.—Shooting in the city ended this evening. The government is arresting all mutineers. Nicholas Lenin, the agitator, charged with being a German spy, is a fugitive.

HYDE CITY MILL NOW PRODUCING CHARCOAL IRON

Plant Put In Operation Yesterday And Excellent Results Obtained By Management

BIG BENEFIT TO CLEARFIELD

The Hyde City steel plant began operations under its present new management yesterday. The furnaces were started during the day and a satisfactory run of merchant bar charcoal iron was made.

The Hyde City steel plant is now owned by a company of Bellefonte capitalists with Dr. Hennigh, of Bellefonte, as President. This concern purchased the steel plant properties outright last year and have made many substantial improvements in and about the plant.

A large force of workmen have been at work daily since the property was acquired and they now have one of the most complete and up to date steel plants in Central Pennsylvania.

In addition to the manufacture of merchant iron this plant will also manufacture a patent metal known as titan bronze the formula for which is a product of Dr. Hennigh's brain. The plant was running full force all day today and the management is highly pleased with the success they are already attaining.

We hope to give the new plant a more extended write up in the near future when everything is in full running order.

The operation of the steel plant will be of great benefit to Clearfield in a business way and the gentlemen interested have the heartiest wishes of all our people for their unbounded success.

Hot News Cakes From The Griddles of War

IMPATIENT WITH DENNAN-GOETHALS AFFAIR

Washington, July 19.—National impatience at the delay caused by the Goethals-Dennan row came out in the Senate today when a resolution was adopted demanding from President Wilson information concerning the fight. Increased irritation has been evidenced in Congress over the Goethals-Dennan affair for several days. The action of the Senate was largely due to the need of immediate shipping construction as the German U-boats have been very successful against allied shipping recently.

MICHAELIS TO MAKE SPEECH TODAY

London, July 19.—Chancellor Michaelis will bid for a German peace in his Reichstag speech this afternoon, according to a report received from Swiss sources today. They declared that the Chancellor's speech would conform strictly to the instructions of the German general headquarters and on the basis of the military situation now regarded as favorable to Germany.

PARDON FOR SUFFRAGISTS

Washington, July 19.—President Wilson today pardoned the 13 women party suffrage pickets sentenced to 60 days in the work house for picketing the White House.

Council Transacts Its Routine Business

Five Cases of Contagious Disease In The Borough of Clearfield

Borough council met in regular session in the council chamber last evening. President Fletcher being in the chair and eight of the twelve members present.

Street Commissioner Graham made report of the activities of his street crew during the past two weeks.

Secretary Wilson of the board of health reported twenty notices to abate nuisances served during the past two weeks. Also that he had made an inspection of all hotels and eating places in the town and investigated all complaints made to the Health department. He reported under quarantine as follows: Scarlet fever, 1; diphtheria, 1; measles, 3.

Borough Solicitor Urey reported attitude of state highway department relative to state aid for south Second street repaving and spoke of complaints regarding blocking of Reed and Bridge street crossings by Pennsylvania passenger trains while express was being unloaded.

Mr. Hagerty of the finance committee reported that his committee had invested \$3400 of 1916 improvement bonds and had amount of same credited to the Equipment and Fourth street funds.

Borough Engineer Hess reported on sidewalk grade on Seventh street and stated that it would be necessary to place steps on this street similar to those on East Pine street.

Matter of Anderson sidewalk on East Pine street taken up and Contractor Ferguson stated that he would build same for Mr. Anderson within the next two weeks.

S. E. Driggs was present and stated that the plans for his movie theatre on Third street required the removal of the Zentmyer residence property to the Locust street property line and this would necessitate the extension of the present baywindow on the house over the property line. He asked permission of council to extend this window over the line temporarily and permission was granted on condition that Mr. Driggs sign an agreement and give bond for the removal of same just as soon as he gets possession of the property, in the meantime said obstruction not to extend to the sidewalk line.

E. Russell Williams asked for a sidewalk grade on Eighth street and curb grade on Dorey street and as the grade at this point is in dispute the matter was referred to borough engineer for report at next meeting.

Oregett & Buchanan asked permission to erect a canopy in front of their garage on Third street to extend over the sidewalk, same to be built onto the garage and supported from the building.

After some discussion permission to erect the same under the direction of the highway department was unanimously given.

Matter of increase in wages of borough teamster was taken up and it was decided to increase his wages \$5.00 per month, making same \$60 per month from this date.

Following many complaints the street commissioner was directed to serve notice on J. C. Barclay, Fred Rollin and Laura Hackman to raise their William St. sidewalks to grade and direct Chas. Feister to lay a new sidewalk in front of his property on said street.

There being no further business council adjourned to meet Wednesday evening August 1st.

FOR SALE—Team of light sorrels. Will make great delivery team as they have been used on a milk wagon. They are well matched and are thoroughly broken. Am now using truck and will sell team cheap to quick buyer. G. M. Clute, Curwensville, Pa. J-19-6tp

Method Selected Will Be Fair To Every District And The Drawing Will Be Made Tomorrow For Sure

PROGRESS WILL PRINT THE NUMBERS

Washington, July 19.—The War Department today announced the system of lottery that will fix the order in which America's millions must step forward for service. The lottery may occur probably tomorrow.

The entire registration rolls of more than 9,650,000 names will be drafted and the order of the examination determined at this drawing. The lottery will consume about one hour. At the end of the drawing every man on the rolls will know the order of his liability for service.

Only one thousand names will be drawn and ten others to fix the order of the "one thousand."

The one thousand names are printed on small squares of paper, black on one side. This is the method as explained in a pamphlet issued by the Provost Marshal General today. The drawing is made to determine the order in which men must appear for examination in their district. Inasmuch as there are more than nine thousand in the largest district and only 120 in smallest districts the numbers drawn must determine the order in the small districts as well as the largest.

First the numbers from 0 to 9 inclusive will be drawn to determine the order of the "one thousand" group on the master list. Next a drawing of numbers from 1 to 1,000 to determine the order of the numbers inside of "one thousand."

For instance if the drawing of the one thousand group results thus 8, 5, 0, 2, 4, 3, 1, 6, 9, 7, that determines the order of the group of "one thousand." Then if the drawing of the one thousand should be this way 876, 84, 500, 1, 43, etc. through the one thousand names, the first name on the master list would be 8,000 plus 876 or 8,876 second 8,084 and 8,500 etc. After the "eight thousand" has been added to the number of the one thousand list in order, then the names of the five in the one thousand group drawing are picked up and applied in the same way. Then the names immediately following the eight thousand would be 5,000 plus 876, and so on throughout the list. Although only 1,010 numbers are drawn, districts with 10,000 registrants will be applied in the same way. It can be used in any district irrespective of the number of registrants. Starting at the top of the list the numbers that do not apply in that district may be ignored and you may proceed down the list until all the names are picked. The men holding those numbers are the first to report in that district.

The second man following on the list is next and so on down the list.

Officials of the War Department asked the registrants to try to imagine a long single column of 11,000 numbers and look down the list ignoring all numbers except those in his district.

The registered man in order to find his comparative position in his district will look at the numbers in his district.

After the lottery the Provost Marshal General send to each district sheets showing the order of examination. By that time the district will have been notified of the numbers of men they must furnish to the army.

They will call for examination twice that beginning at the top of the list and continuing the examination until the quota has been made up.

THURSDAY EVENING, JULY 19, 1917.

The day of the week has arrived for Crate to get his regular weekly advertising.

Waiting for the drawing of the numbers is a great deal like the suspense of last November though the outcome will be somewhat more desirable.

Yesterday we intended to publish the Red Cross figures for the principal cities of Pennsylvania but power facilities interfered with our plans. We present them today.

According to the morning papers the drawing will take place at 10 A. M. tomorrow. Probably switched from the evening so the draft would not catch a lot of fellows in their nighties.

About a year ago Louis Raemakers drew a picture of the Kaiser and the Crown Prince standing on a mound of skulls, and the son saying: "Father, this hill is not yet high enough for us to see Verdun." Since then the Crown Prince has added greatly to the height of the mound, but he cannot yet see Verdun. For seventeen months he has been sacrificing Germans in front of Verdun, and he long since ceased to make any progress; recently he has lost ground.

It begins to look as though the young men of this vicinity have only about twenty-four hours left in which to volunteer their services to Uncle Sam. Many of them do not yet understand that no man between the ages of twenty-one and thirty will be allowed to volunteer after his number is drawn and this drawing will in all likelihood take place tomorrow. There is absolutely no stigma or disgrace to be attached to being conscripted under the present conscription law but many advantages accrue from volunteering. The volunteer may take his choice of army, navy, marine, signal corps or any other branch of the service and this choice is a real privilege. On the other hand there are many young men who have started in professions and business who are going to take a chance on being conscripted rather than sacrifice their business. If their number is among the first drawn they will willingly go and not make any attempt to be exempted on business grounds.

The announcement of the method of drawing and deciding on what numbers representing registrants will first answer the call of the Exemption Boards may appear to the layman as vague and hard to understand, as indeed they are. Those who do not care to undertake the task for themselves may rest assured that their number will be determined for them and served up, it you please, by the newspapers within a short time after the drawing. The Progress will print the drawn numbers tomorrow if the drawing is actually made and there is every indication that it will be. The numbers printed will be the ones that will answer.

Daddy's Bedtime Story—

DUMMLING WENT TO COURT

She Burst Into Loud, Long Laughter.

[Adapted from Grimm's Fairy Tales.]

WHEN the children had finished supper daddy came into the nursery and asked if anybody wanted to hear a story. Jack and Evelyn both clapped, so daddy began the golden goose tale: "Dummling was supposed to be stupid. But the fact was he had enough generosity about him to share his poor food with a little old man of the woods. When the old man fixed it so Dummling found a golden goose under a tree it seemed as if Dummling was on the way to good fortune. And he was, as daddy will now tell you.

"The strange thing about an enchanted goose is that anybody who tries to pluck one of its wing feathers sticks fast. So Dummling soon had quite a train behind him—three girls, a parson, a clerk—and then they met two workmen.

"They had two great axes over their shoulders, and the parson cried out to them to cut him loose. But hardly had they laid hands on him when they stuck fast as two postage stamps. On they had to trudge just like the others.

"This made seven of them trailing along after Dummling and his goose. "Just then it entered Dummling's head that he would like to see a little something of the world before he went home. So, with his strange partners behind him, he at last came to a big city where lived a king who had an only daughter.

"Now, this princess was of a thoughtful, moody turn of mind. It had been years since any one had been able to make her laugh. This worried her father, who wished his daughter to be merry and happy. So he gave it out to the world that any one who made the princess laugh might have her for a wife.

"Of course a great many young men had tried for her. But they had only ended by being silly. But this is just where Dummling proved he wasn't as silly as most folks had always thought him. The minute he heard about the gloomy princess he ran with his funny train and marched up and down before her windows.

"Now, it happened that the moody princess was looking out of the window. When she saw three mud-splashed girls, a gouty parson, a venery clerk and two big workmen all hanging together, all treading on each other's heels, tripping each other up and all stuck fast to a boy and a gold goose, she burst into long, loud laughter that fetched the king to her side.

"Then Dummling claimed her for his wife, and the king let him have her. So Dummling, the stupid, was heir to a kingdom and lived long and happily with her ever after."

TAKE SALTS FOR THE KIDNEYS IF YOUR BACK HURTS

We Should Drink Lots of Water and Eat Less Meat, Says Noted Authority on Kidney Disorders

Recommends a Spoonful of Iod Salts in Glass of Water Before Breakfast to Stimulate Kidneys and Eliminate the Uric Acid

Uric acid in meat excites the kidneys, they become overworked, get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy, the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys stop you must help them finish off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also put from any pharmacist four ounces of Iod Salts; take a tablespoonful in a glass of water before

breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Iod Salts is inexpensive, cannot injure, makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Iod Salts to folks who believe in overcoming kidney trouble while it is only

HALF A CUP OF MILK

"Milk a Mickle Makes a Muckle."

Half a cup of milk—whole, skimmed or sour—a seemingly trifling matter—hardly worth the trouble to keep or use.

In many households quite a little milk is wasted—left uncovered in glasses—regarded as useless because the cream has been skimmed off—allowed to sour—poured down the sink or thrown out.

Now, if every home—there are 20,000,000 of them—should waste on the average one-half cup daily, it would mean a waste of 2,500,000 quarts daily—912,500,000 quarts a year—the total product of more than 400,000 cows.

It takes a lot of grass and grain to make that much milk—and an army of people to produce and deliver it.

But every household doesn't waste a half-cup of milk a day? Well, say that one-half cup is wasted in only one out of a hundred homes. Still intolerable, declare government experts, when milk is so nutritious—when skim milk can be used in making nutritious soups and cereal dishes—when sour milk can be used in bread-making or for cottage cheese.

Deaf Men Found to Be Best Workers in Noisy Factory

The war is developing new labor conditions and problems. Probably the most unique instance which has come to light is contained in a request made of the labor bureau of the Ohio branch of the national defense council by an Ohio manufacturer, says the Columbus Dispatch.

"I want from twenty to thirty deaf men. If they are deaf and dumb both, it won't make any difference." This was the request made by a big Ohio manufacturer. "I will pay them from \$2.50 to \$3.50 per day and give them steady work. I want to put them to work in one branch of my factory where the noise is so great that it is impossible to keep hearing men on the job. I tried a couple of deaf men and they have proved so successful that I want a score or more of them."

TWO STARS HAVE NEVER BEEN WITH WINNING TEAM

Joe Jackson and Walter Johnson Have Not Had Chance to Break Into a World's Series.

The two stars who are active in the game today and who have never been with a winning team are Walter Johnson, for years conceded to be the best pitcher in the American League, and Joe Jackson, the hard-hitting outfielder.

The case of Johnson is much the same as that of Rucker. Even when the Senators were down among the last clubs in the American League Johnson pitched a caliber of ball that made him stand out more prominently and above the pitchers who were on winning teams. It has often been remarked that had Johnson been with the Cubs, Giants, Tigers or Athletics

Joe Jackson.

when those teams were winning pennants he would have established some pitching records that would have stood for all time.

And Joe Jackson has been prevented from playing in a world's series because he happened to be under contract to the hard-luck Cleveland team up to last year. There is still a chance for Jackson realizing his ambition, as he is now with a team that has been in the thick of the pennant race for two seasons, and Joe should be good for several more years before he starts on the path which all players eventually travel—backward.

As for Johnson, there are at least four clubs in the American League that are so far ahead of the Senators that Walter will have little opportunity of getting into a world's series unless he is disposed of to another club, or unless Clark Griffith becomes a miracle man and puts over an unexpected winning combination.

Japanese Form Unions and Win Demand Higher Wages.

Agricultural and commercial unions are forming in many parts of Japan. One of the most noticeable results of the European war is the advancement in geographical and commercial knowledge acquired by the working people from the newspapers. They have improved to a remarkable degree in information about the rest of the world.

Prior to the war, the laboring classes knew almost nothing about the rest of the world. Due to the enterprise of the Japanese journals in chronicling the progress of events, the entire population is fully informed.

The Japanese people have become cosmopolitans, says the East and West News. They are contented, because plenty of work offers; but they have learned about the wages paid in other parts of the world for labor similar to theirs and are very likely, after the war, to insist on higher wages. Opinion is general that skilled workmen in Japan will insist on better remuneration.

That Will Turn Out Smooth Delicious Ice Cream In Just A Few Minutes
It's the triple motion of the paddle that reduces the turning time for the making of ice cream that makes these freezers stand out head and shoulders above anything else on the market.

WHITE MOUNTAIN FREEZERS

Tubs are of seasoned wood with electrically welded hoops. All metal parts are made of cast iron heavily tinned to resist the corrosive action of the salt.

Handles are long enough to give lots of leverage, adding ease to the otherwise arduous task of home freezing.

Farm Dialogue No. 1

"Well, I guess that we'll that threshing." (Farmer and hired man go to threshing machine and giving machine a start are started by a loud noise in the vicinity of the crank mechanism that runs the screens.)

"What's that?"

"I dunno, let's see."

"There it is, that crank shaft is broken, just when I was offered a good price for my grain for immediate delivery. That's going to cost me money waiting for the new part and the price of grain is sure to drop in the meantime."

"Say, boss, have you heard about that Favorite Thresher that Murphy sells over in Clearfield? They tell me that the screens on that machine are run by an eccentric action, and there's never been known to be any delay on account of one breaking."

"Well, I guess it's up to us to hop into the car and see Murphy. We can leave the car on Third street and go right around to his office."

News of the Day Culled From Various Sources

Enabling Our Readers to Keep In Touch With The Outside World

WILSON TO SUPPORT ANTHONY SUFFRAGE BILL

Washington, July 18.—The Anthony suffrage amendment may be introduced in congress in the near future as a war measure with the backing of President Wilson. It was stated tonight by J. A. H. Hopkins, New Jersey, former Progressive national committeeman and husband of one of the imprisoned suffragists, following a conference with the president today.

ONE-CENT STAMP TAKES MAGAZINES TO FRONT

Unaddressed and Dropped in Mail Box Assures Delivery to Soldier

Washington, July 18.—Magazines and newspapers bearing 1-cent stamps hereafter may be posted, unwrapped and unaddressed, by persons other than publishers, and will be forwarded by postal authorities to American soldiers and sailors in Europe.

In announcing today plans for gathering reading matter conveying home news and fiction to the boys abroad, Postmaster General Burleson suggested that magazines print the following in the upper right-hand corner of their front covers:

"Notice to the reader: When you have finished reading this magazine, place a 1 cent stamp on this notice, hand same to any postal employee, and it will be placed in the hands of our soldiers and sailors at the front. No wrapping—no address."

PIHIA MAN CHOSEN FOR AMBASSADOR TO JAPAN

Roland S. Morris Acceptable to the Government at Tokio

Washington, July 18.—Roland S. Morris, of Philadelphia, has been chosen for appointment as ambassador to Japan to succeed the late Ambassador Guthrie. It is understood he is persona grata to Japan and that the nomination will go to the senate shortly.

It is understood Vance C. McCormick, the Democratic national chairman, was offered the post at Tokio, but declined and recommended the appointment of Mr. Morris.

SAYS GUARD IS NOT PREPARED FOR SERVICE

Lieutenant Colonel Robert M. Brookfield, of the Third Infantry, declared yesterday that the National guard required at least five months' training in this country, followed by seven more abroad, before the men would be fit to send into the first line of trenches. Colonel Brookfield also said that the Federal government should invite the British and French officers who have been invalided home to come to this country and take charge of the general plan of training in the southern concentration camps.

WOMEN INSIST ON SERVING OUT TERMS IN JAIL

Suffragists Oppose Payment of Fines By Husbands or Relatives

Washington July 18.—After a day in prison, the sixteen suffrage leaders announced tonight that they were determined to remain in confinement rather than allow their husbands and relatives to pay their fines. Yet their friends are doing their utmost to force an appeal or get the administration to exercise clemency.

John A. Hopkins, Democratic national committeeman from New Jersey saw the President today and later conferred with Dudley Field Malone, counsel for the women. It is expected that an appeal will be taken tomorrow.

CONFISCATION FEAR FORCES RECORD LIQUOR WITHDRAWAL

Washington, July 18.—Liquor dealers alarmed at the prospects of the government seizing the vast quantities of distilled spirits in bond, are withdrawing whisky from bonded warehouses at a rate never before equalled. Within 10 days more than 10,000,000 gallons have been withdrawn and the ratio bids fair to be continued.

The whiskey is placed largely in revenue officials believe in stock in retail establishments. Withdrawals have been almost exclusively from warehouses in Kentucky, Pennsylvania and Maryland and the Cincinnati and Peoria districts.

As a consequence internal revenue receipts this month set new records, the total for the first 17 days being approximately \$7,500,000 more than last July.

FINISH FIGHT INITIATED BY GENERAL GOETHALS

But Shipping Tangle Can't be Prolonged Over Next 48 Hours

Washington July 18.—After a two

NOTICE TO BIDDERS

The Board of Directors of the School District of Clearfield Borough hereby gives notice that it will receive sealed bids up to 7 o'clock P. M. of the 14th day of August, 1917, for furnishing coal for the school year 1917-1918 at the following school houses in the borough of Clearfield:—

New High School Third Ward
Central Grammar (Old High School) Fourth Ward.
Leonard Graded Reedsville

Bids will be received for the supply of any one or more buildings or the supply at all the buildings.

The successful bidder will be required to give bond with security satisfactory to the Board, in an amount sufficient to cover the contract, conditioned for the faithful performance of his contract.

The right is reserved to reject any or all bids.

Clearfield Borough School District, by A. D. BIGLER, President.

Attest:
W. SCOTT PIPER, Secretary.
J-19, 26, A-2.

TRACKWALKER SUSTAINS A CRUSHED FOOT

E. Vallimont, a track walker on the River line of the New York Central railroad, had a part of one foot crushed off yesterday afternoon. The accident occurred at Mowrey. Vallimont attempted to board a moving freight train, and missing the car slipped his leg slipped through to the rail and the car wheel crushed his toes off.

He was brought to the Clearfield hospital in an automobile last evening where it was found necessary to amputate a portion of the foot. He suffered severely from shock and loss of blood but is now recovering satisfactorily.

FAIR DEAL FOR FARMERS

Washington, July 19.—Special Correspondence.—A measure that will command the attention of the farmers of the west has been introduced in the Senate by Hon. Charles Curtis of Kansas. It directs the Secretary of Agriculture to appoint at each railroad terminal or city in the United States a grain and hay inspector who shall inspect, grade and tag all arrivals of grain and hay. A copy of the inspection shall be placed inside of the car, and another copy mailed to the consignor. The Secretary is directed to establish grades for grain and hay and to make all the necessary rules for administering the act. The expenses of the work are to be paid by fees collected by the inspectors, which are set forth in detail in the bill. Senator Curtis has designed his bill to meet the discontent among farmers because of the lack of proper standards for the grading of grain, and he will endeavor to secure action upon it as soon as the press of war legislation will permit.

Not a Corn or Callus on Feet

Apply few drops, then lift them off without pain.

A noted Cincinnati authority discovered a new ether compound and called it Freezone. A dit now can be had in little bottles for a few cents from any drug store.

You simply apply a few drops of Freezone upon a tender corn or painful callus and instantly the soreness disappears, then shortly you will find the corn or callus so loose that you can lift it off with the fingers.

No pain, not a bit of soreness, either when applying Freezone or afterwards, and it doesn't even irritate the skin.

Hard corns, soft corns or corns between the toes, also, toughened calluses, just shrivel up and lift off so easy. It is wonderful! It works like a charm. Try it! Women should keep Freezone on their dressers and never let a corn ache twice.

hours' debate with William Denman, chairman of the shipping board, Major General George W. Goethals, general manager of the Emergency Fleet corporation, said tonight when asked if he contemplated handing in his resignation: "I am a soldier."

This was taken to indicate that the General would not resign in any circumstance under fire and that the fight was on to the finish.

Situation Can't Continue

The chances of an adjustment which might keep both Mr. Denman and General Goethals in the service was considered much brighter than it was yesterday. The only thing that seemed certain today was that the impossible situation confronted when the shipping board adjourned tonight could not be continued for another 48 hours.

CURWENSVILLE

The Kittleberger property on Gramplan road is being re-roofed and other repair work done.

David Reid, who was a recent visitor with his daughter, Mrs. J. G. Fullerton, left for York Pa., for a visit of several days with his daughter, Mrs. Walter Gray.

Miss Edith Hart left for Endicott, N. Y., where she will spend the summer.

We are glad to state that Mrs. John McLaughlin, who has been seriously ill, is slowly convalescing.

Mr. and Mrs. James Bloomfield and two children of Altoona, visited the latter's sister, Mrs. Wills Manaval on South Side.

Misses Inez Bloom and Laura Hudson visited in Clearfield yesterday.

William Schurr and son Wallace, Mr. and Mrs. George McElho and child and Harry Short, of Home, Indiana county, who were here to visit the former's son, Reuben Schurr, of Ridge Avenue, who has been confined to his bed with rheumatism and heart trouble for sometime, have returned to their home, accompanied by Mrs. William Schurr, Reuben's mother, who has spent the past week with her son. It is hoped he may soon be restored to his usual good health.

Mrs. Lydia Grove, mother of Mrs. Orvis Thompson, and Miss Arding Fleming, both of Williamsport, after several days visiting the home of Orvis Thompson and wife returned home Tuesday.

John Lucas of Curwensville and Miss Blanche Holt of Clearfield were united in marriage by Squire John A. Dale Monday evening, July 16.

Don't forget the festival on the lawn at the Presbyterian church this evening.

Gerald Murphy, son of Mr. and Mrs. A. J. Murphy, former residents of this place, now of Pittsburg, visited in town between trains yesterday.

Wm. C. Wolf, of Maryland Field Artillery, is home for a few days before leaving for camp at Anniston, Alabama, in preparation for service in France.

GRAMPIAN

Friends Ladies Aid met at the home of Mrs. Wm. Norris Wednesday.

Mr. and Mrs. E. A. Spencer returned on Monday from an extended auto trip, having made a total of over one thousand miles without any serious trouble or delay at any time. Miss Eva Spencer accompanied them as far as Akron, Ohio, and stopped there with her sister, Mrs. Thornton Farwell. Miss Pearl Layman, of Ashland Ky., accompanied them home to spend a couple of weeks with them.

Mrs. Russell Thorp is on the back list, having an attack of appendicitis.

DANGERS OF PRESS CENSORSHIP

Although the Cruger murder case in New York City is a local affair in one sense, it has attracted nation-wide attention because of the demonstration of the need of public surveillance over bureaucracy. The disappearance of the Cruger girl was to be passed over without attention by the detective bureau for reasons to be disclosed. A woman lawyer, through friendship for the family, worked on the case and finally discovered the remains of the murdered girl. The city has since forced a sweeping investigation of the detective service.

But what would have been the outcome if New York City had established a press censorship such as the national administration undertook to establish? Under such a system of dictatorship over the press, all the facts would have been suppressed upon the plea that publicity would interfere with the capture or conviction of the murderer. The efficiency, or worse, of the detective bureau, would have been concealed by the bureau itself.

The more one thinks of the harm resulting from suppressing a free press, the more incredible it seems that any national administration could have even asked for such broad powers as were included in the proposed legislation.

Prof. W. P. Weaver of State College will talk on "Community Co-operation" in Susquehanna Grange hall, Saturday evening, July 21st.

Patrons of Susquehanna and other Granges will please make an effort to be present at this meeting. The public is cordially invited to attend the meeting being held in open session. Master, Peter Gearhart Sec'y, T. L. Way, Lecturer, Mrs. Wilson McClure

These Prices Are Of Extraordinary Interest To Women Who Have An Eye To Thrift. Both The Skirts And The Toweling Are Out Of The Ordinary

This is an answer to the call of economy. These skirts are being sold at prices that do away with our usual margin of profit but they're getting too familiar to us and we insist that they move out.

Made of gabardine and linene in full sizes mostly of the plain conservative patterns.

The workmanship is out of the ordinary and the wide hem at the bottom is worthy of particular note. Have side pockets. Note the low prices we're offering them to you for.

\$1.75 Skirts now selling for \$1.28
\$1.50 Skirts now selling for \$1.18
\$1.00 Skirts now selling for \$.87
\$.75 Skirts now selling for \$.63

300 YARDS 16 INCH TOWELING, 6c YARD

This is an unusual price on this toweling for, bought on today's market it would sell for 10 cents; we've been selling it for 8 cents; on account of our large purchases we're offering it to you at 6 cents the yard. Fairly heavy cotton; will absorb moisture as well as any cotton. Has red or blue stripe for your choosing.

ROSS & WOODS,
Market Street, Clearfield, Pa.

JUMP FROM BED IN MORNING AND DRINK HOT WATER

Open sluices of system each morning and wash away the poisonous, stagnant matter, says authority.

A glass of hot water with a teaspoonful of limestone phosphate in it, drank each morning before breakfast, keeps us looking and feeling fit.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store, which will cost but little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

LAWN FETE

The Sunday School chorus of the Lutheran church will hold a Lawn Fete at the home of Miss Lillian Ericson

W. Third Avenue, next Thursday evening, July 19th if the weather is favorable. Strawberries, ice cream, cake and coffee, 15 cents.

We must have the room for our Fall Shoes that are arriving daily.

LYTLE BROS.

Street,

Clearfield, Pa.

To The People Of Clearfield And Vicinity:

I have fitted over 500 people in the last ten months, among these 500 people I have 65 patients which other great opticians were unable to correct the refraction.

I have treated patients from Philadelphia, Pittsburgh, Johnstown, Phillipsburg and other cities who came here to Clearfield after being unable to have their eyes properly treated.

I have been practicing over forty years as an eye specialist, if you are wearing glasses and your eyes smart or you are subject to headaches, then your glasses are not right.

You can see me every Saturday at the Allegheny House.

You can see me by appointment any day during the week free of charge.

M. BONE

EARNEST SUPPORT OF REPUBLICANS

In the words of Congressman Moses P. Kinkaid of Nebraska the purpose of the food bill is "to win the war," said as the Commander in Chief of the Army and Navy, who, Mr. Kinkaid admits, must know more about what is needed than he does, had asked for the legislation, he gave it his support. "This is not a time," declared Mr. Kinkaid, "to let any consideration, personal or political, stand in the way of our fullest and heartiest cooperation with the President." In giving voice to those sentiments Mr. Kinkaid expressed what is in the minds of the Republican party generally, both in the Senate and House. The biggest obstacles that have been put in the path of needed war legislation have been placed there by Democrats, as witness the determined fight against the food bill that has been waged by leading Democrats of the Senate.

PROMINENT BRISBIN

Mrs. Townsend Stott died Monday afternoon July 23 at her home in Brisbin, Pa., after a short illness. She was aged 52 years and leaves to mourn her death her husband and the following children: Verna Williams, of Grampian; Grace Dallen, of Houtzdale and Caroline, Elizabeth and Paul at home. Also her father William Goss and the following brothers and sisters: Mrs. D. M. McHenry, of Haslings, Frank Goss, of Maryland, Elmer Goss of Twin Rocks, Mrs. J. H. Chase, of Clearfield, Harry Goss, of Colver, Jackson Goss, of Middletown, Mrs. Howard McGonigal, of Winburne and Mrs. Steve Ross, of Johnstown. Mrs. Stott was a very sweet, Christian woman, a member of the Baptist church 28 years and was greatly beloved by everyone who knew her.

The funeral was held at half past one at the Baptist church Wednesday afternoon, attended by a large number of relatives and friends who were anxious to pay their last tribute of love and respect to her who was always ready to help them in time of stress and sickness.

Catcher Traverser of the Braves has had to give a continuous performance in backslapping since Hank Gowdy joined the colors.

NOTICE OF DISSOLUTION OF PARTNERSHIP

The partnership between Mr. Alfred Graham and Mr. Henry Hoover, both of Clearfield, Pa., being in the lumber business under the firm name of GRAHAM & HOOVER, has been dissolved this 16th day of June 1917. Mr. Graham has bought out Mr. Hoover entirely and is now sole owner of the business.

ALFRED GRAHAM

CHICHESTER'S PILLS
For Biliousness, Indigestion, Headache, Stomach Trouble, Constipation, etc.
This is the only medicine that cures all these troubles. It is a small, round, white pill, and it is so easy to take that it is suitable for the most delicate. It is sold in every drug store, and it is so cheap that it is a real bargain. It is the only medicine that cures all these troubles. It is the only medicine that cures all these troubles.

MANY CORN SUFFERERS MADE HAPPY

New Oil Treatment Brings Relief To Thousands.

It is said that New Oil Treatment is the only one that cures corns. You don't even have to take off your shoe to get relief. Just pour a few drops of the oil on the shoe over the corn and it goes creeping and crawling down into the corn, and the pain disappears. That's the explanation of the cure. On the corn at bedtime it is said, will dissolve the callus, easily peeling off the corn, thus giving you permanent relief. Call at your druggist's for trial bottle of Miller's Antiseptic Oil (known as Snake Oil). A small, no substitute, there is nothing like it. See that the word "MADE IN THE U. S. A." is on top of every package. Made in the U. S. A. 4 and 8100.

It is reported from Rome that the Pope has selected Queen Elizabeth of the Belgians as the recipient of the Golden Rose, the great pontifical honor annually bestowed upon some worthy individual.

It is reported from Rome that the Pope has selected Queen Elizabeth of the Belgians as the recipient of the Golden Rose, the great pontifical honor annually bestowed upon some worthy individual.

DUAL EFFECT OF NEGRO MIGRATION

Negro associations are passing resolutions advocating a wholesale emigration of their race from the South to the North. The injustice under which they suffer in the southern states through the denial of their civil rights is given as the moving cause of this determination to migrate—and if the exodus takes place upon any extended scale its effect will be great, both from an economic and a political angle. It will deprive the southern states of the plentiful and cheap labor which they have so long enjoyed for the production of their staple crops; and it is very likely to affect the political power of those states, as well. For instance, under the present regime in the south, the negro is counted in the census and thus made a basis for representation in Congress and in the electoral college. He is, however, denied the right to vote; and swollen ranks of southern Congressmen and electors are the result. The next census will be taken in 1920 and upon it will be calculated the Congressional and electoral strength for the states. If thousands of negroes come north, some southern states will suffer diminution of population and, in consequence, of political strength; while some northern states will proportionately profit.

TO SETTLE LONG DISCUSSED PROBLEM

In order to provide a basis for the final settlement of the question of diversion of water for power purposes from Niagara Falls, which has been vexing Congress for so many months, Representative George F. Foss of Illinois, believes the Secretary of War should be authorized to make a thorough

investigation of the entire subject. When the matter was before the Committee on Foreign Affairs, of which Mr. Foss is an influential member, he urged that that course be pursued, and he is particularly pleased that his ideas were adopted by the conferees, and will appear in the law as finally written. Mr. Foss says there has never been an investigation of the whole subject of water diversion at the Falls. At the next session of Congress Mr. Foss hopes the report will be available, and Congress can then take up the matter intelligently.

BITS OF WISDOM

New York Times—There is something the matter with a censorship that withholds from publication perfectly innocent news dispatches, that even would be most salutary if published here, while permitting injurious and treasonable falsehoods to be sent out from the country all over the world.

Wall Street Journal—You may as well do your bit cheerfully, as you'll have to do it anyway.

Boston Herald—Many thanks for the legislation that permits a newspaper to print a picture of the flag without becoming thereby a lawbreaker.

Woodsfield (O.) Republican—Teddy and his division can truthfully say "He kept us out of war."

Herman Tilger, of Demmon, Texas is visiting his mother, Mrs. Rachel Tilger at the home of the Misses Eliza and Nancy Waring at Graham Station.

THE SULKER

By GEORGE M. ADAMS.

If there is one man that every other man feels like heaving a brick at it is the man who Sulks—doggedly, foolishly, and blatantly Sulks. For the Sulker not only refuses to do anything himself but he throws a wet blanket over the good intentions and desires of everybody about him.

Few of us there are who do not Sulk at times. But of all the nonsensical nonsense Sulking takes first place. If every Sulker could but sit by long enough for those interested in him to dig a hole in which to put him, he would come out of his trance mighty quickly, for if there is anything that a Sulker hates it is nonsympathy and utter abandonment.

Here is a little suggestion for the riding of this world of its Sulkers: First, never Sulk yourself—he too busy. Second, whenever you see a Sulker, forget him and leave him—the Sulker is never happy alone.

Why "Jeopardy" Left.

Hudson Maxim, inventor of explosives, tells this shivery anecdote in a volume called "Dynamite Stories Just Published." "We once had a servant girl whom we nicknamed 'Jeopardy' because she could not be prevented from pouring kerosene directly from the can upon a lighted fire. One day Jeopardy left us very suddenly, and she never came back. We are sorry she left, as Jeopardy was a good girl. It developed that she had chanced to find a fifty-pound case of dynamite sticks in the woodshed, which she had been using to start the fire in the kitchen stove. Sometimes dynamite will work itself off for such a purpose, but is not a safe thing and cannot be depended upon merely to burn. It was during one of these intervals that Jeopardy went."

NEW YORK AND PENNA. ARE SLACKERS

Washington, July 19.—With only two states—New York and Pennsylvania—yet to be heard from, Provost Marshal General Crowder today declared, "I am confident the drawing will be held tomorrow."

Misses Mary Ogden and Mary Mann attended the Penn Public picnic at Philipsburg yesterday.

Miss Zoe Whitmarsh left today to visit with relatives and friends in Erie and Olean, N. Y.

ON THE SCREEN

THE PARSON OF PANAMINT

Special At The Globe Today
Millions have read this wonderful story, published first in the Saturday Evening Post, and upon which the Pallas Pictures production of the same name is based. Dustin Farnum as "The Parson of Panamint," has literally immortalized by his screen characterization, one of the most interesting figures in the history of fiction of the great west. The story centres in one of the mushroom mining towns of Nevada of forty years ago. The characters are lovable for their sincerity, their earnestness in trying to conform to the ethics of city government, one of which necessitates a parson. And Dustin Farnum as Philip Pharo, is chosen to purge on Sundays the evils of the week.

The elements of human interest, of history, of tragedy and comedy, as related by "Chuckawalla" Bill form the foundation of a very unusual and wonderful story of the West.

The Wise Mother.

Every mother should by tact and kindness try to bring out the best that is in her children, for she and she alone understands their temperament. Of course they must have time for romping and playing, for no child can be truly happy unless he has a full share of play, but his good times should not by any means intrude on his studies.

A wise mother is she who keeps in touch with her children's school work, who calls on their teachers occasionally for a friendly chat. By so doing she knows to a certainty how her little ones are progressing, and if they lose enthusiasm she encourages them to better efforts.

Children who are started right at home always make a good showing in school, and the mother who hopes to see her child advance along educational lines must, without a question, co-operate with his teacher.—Pittsburgh Dispatch.

Some Wrestler.

"I see they've stopped boxing."
"Yep."
"I hope they won't stop wrestling."
"Why?"
"If they do I'll have to give up my art. I have to wrestle with it every day."

Eddie Cicotte, the White Sox hurler is the only American league veteran pitcher standing up under the strain this season. He is twirling his eleventh season in the big show and looks good for several more years of major league pastime.

Hon. G. W. Bell, of Bell's Landing, was a business visitor to the county seat today.

Joseph E. Reitz, one of DuBois' leading business men, was a Clearfield visitor today.

Mr. and Mrs. R. D. Hyde and daughter Audrey left today on an extended auto trip to Detroit, Mich., and other Michigan cities. They took with them a tent and provisions to camp along the way.

R. W. Zirm, of New York, is spending a few days with friends here.

Mr. and Mrs. Lavinia Beebe and Miss Sheets of Philadelphia, motored to Clearfield and are the guests for the day of Mr. and Mrs. G. Webb Stillingford at their home on Old Town Road.

ICE CREAM FESTIVAL

There will be an ice cream and cake festival at the Mt. Joy Grange Hall on Friday evening July 20. Everybody invited.

New Isinglas Backs For Auto Tops

Stop That Dust From Coming In On Your Back. I can Replace That Broken "Back-Sight" In Your Car

You can now do away with the annoyance of dust, drafts and that "old car" appearance of your machine, caused by the isinglass being broken out.

Bring your car down and I can fix it up in a short time.

METHOD OF DRAWING NUMBERS GIVEN

TRIPLE MURDERER TOMPKINS HAS CONFESSED HIS ATROCIOUS CRIME

Prisoner Makes Clean Breast Of The Whole Affair But Authorities Will Not Divulge Motive For Crime

DEFENSE OF INSANITY IS EXPECTED

Johnstown, July 19.—George Tompkins, Jr., today confessed to the murder of Edmand Humphries, Mrs. Humphries and their son at Carrolltown, Sunday morning. He confessed in the presence of Attorney John Evans, his counsel. The prisoner made a clean breast of the entire affair. Jail keeper Knee also heard the confession. The accused man told how he had purchased the revolver and how he committed the triple murder, but these things have not been divulged by the officials.

Mrs. Tompkins, wife of the confessed murderer, was told of the confession at noon. She is in a state of collapse. It was intimated that the defense will plead insanity when Tompkins is arranged in September. It is said at the jail that Tompkins admitted purchasing the gun with which the murder was committed. He said he was in Johnstown Tuesday, July 10, and purchased the weapon. Rev. Heany, pastor of the Ebensburg Presbyterian church, went to the county jail shortly after noon and spent some time with him.

CORRECTIONS

Those who have the sheets showing registered men will kindly make the following corrections: All numbers from 789 to 1004 are Curwensville registrants. 788 alone is Blandburg. 1029 is A. R. Hinkle instead of A. R. Himes.

Be Careful About Your Flour Storage

Buy flour in small quantities and protect it carefully from spoilage, is the keynote of a suggestion from the United States department of agriculture.

Sound flour milled from standard wheat exhibits very little tendency to decompose when stored in a proper manner. Nevertheless, there is considerable loss of flour through spoilage as a result of improper storage particularly during the summer months. Flour dealers naturally have to carry in storage an amount of flour proportionate to the current needs of their trade. Housekeepers on the farm and in the city should purchase flour in accordance with their needs only. It is false economy for the particularly during the summer housekeeper to purchase any larger amounts of flour than can be used within a reasonable length of time. This may be a barrel for a large family; more often it will be the 50-pound sack. Any storage of flour in excess of the consumer's needs constitutes hoarding which, under the present circumstances, is an unethical and reprehensible practice, of no profit to the individual who practices it, but injuries to the best interests of the people.

Since it is the duty of everyone in the present situation particularly to avoid all waste, it is incumbent upon each one to store the normal stock of flour so to eliminate all waste whatsoever. The precautions that are required have been well worked out in practice and are stated as follows by specialists in the department of agriculture.

There are three cardinal principles of flour storage. Flour should not be stored in the cellar, since the cellar is rarely free from dampness, even though special flour bins have been built in. It is common to find odors in a cellar and flour absorbs odors and is contaminated by them. The cellar is cool, but is usually too damp. Flour should not be stored in the attic of the usual type. The temperature is too high in summer, there is no circulation of air, and the flour is likely to acquire a musty odor. Flour should not be stored in the pantry or kitchen

except in small quantities since the temperature is certain to be uneven and the flour is likely to be contaminated by odors.

If practicable every household should possess a small room for storage of non-odorous commodities. Such a room is best located on the north side of the building. It should be ventilated and a cool and even temperature should be maintained. Where such a room is not available a closet may fit the requirements well. The bins or containers should be kept clean, and when an old stock of flour is exhausted the container should be carefully cleaned before a new stock is placed.

Naturally the flour must be guarded from vermin. Flour should be examined occasionally to see that decomposition has not begun. Conserved in this manner, the sack of flour in the household and the larger stores of the retailer can be utilized practically to the exclusion of any waste through spoilage.

NO FEAR FOR DEMOCRACY

Senator Hiram Johnson of California sees no peril to our democracy in granting at this time autocratic powers to the President for the conduct of the war. He believes the people will be quick to resent any abuse of the powers conferred by Congress, and for that reason the Administration will exercise its great authority with the strictest care. "A real democracy sure of itself," asserts Senator Johnson, "may in safety centralize its power for its own protection." In Mr. Hoover the Senator believes we have a man peculiarly fitted for the position of food administrator. He has already distinguished himself as a world figure, and he has, to use the words of Mr. Johnson, "been striving for humanity with an altruism that challenges the admiration and affection of us all."

Wagon Loading To Be Stopped Again

Cars Needed By Railroads Is The Reason Advanced To End It

"Wagon loading" of coal has been stopped on the B. & P. railroad for the present at least. An order went forth Tuesday morning from Superintendent of Car Service Burns at Rochester, N. Y., to the superintendents of the various divisions, instructing them to place no more cars at this time at sidings where coal had to be loaded from wagons.

The order went into effect Tuesday and caused widespread consternation among the wagon loaders of this section. The Hocking Valley railroad has placed a permanent order into effect barring wagon loading and it is understood that several other roads contemplate a similar move.

The order is not a permanent one, but it is liable to become so. An official of the road stated yesterday morning that he could not say for what period the order would be in effect. The Commission on car service sitting at Washington, is now considering the complete abolishment of loading coal from wagons and it may be that before the B. & P. order is rescinded orders prohibiting wagon loading on all railroads will be issued.

The B. & P. Ry., as well as all other railroads, needs its cars at the present time," said an official of the company today. "Placing a car on a siding for wagon loading ties up the car from one and a half to five days, and this is a great hindrance to the moving of traffic. Cars are badly needed, and it is probable that this order will remain in effect until the demand for cars slackens. No railroad can secure the maximum of service from its cars by allowing them to remain on sidings for two and three days at a time, and this is a time when every hour counts."

The order will result in a great hardship for many coal operators in this locality. The boom in coal prices opened up many new mines in this locality. With coal selling at five and six dollars a ton a haul of two or three miles from a mine to a siding could be made and the producer still make a handsome profit.

Whether or not the order will reduce production in this section remains to be demonstrated. The operators leading at tipple maintain that it will result in an increased production for the reason that the mines at which coal is loaded by tipple will be able to secure more cars.

CANNED TOMATO SAUCE OR PUREE

Since tomatoes contain a very high percentage of water, it often is desirable to can only concentrated tomato products. This is true especially when cans or jars are difficult to obtain. A delicious concentrated tomato sauce may be made and canned for use in a variety of ways. Small or broken tomatoes and large tomatoes unsuitable for canning whole, may be used in this recipe.

Cut the tomatoes into fairly small pieces and add one large-sized onion chopped and one cup chopped sweet red pepper to one gallon tomatoes. Cook until tender. Put through a sieve and add a mixture of 1-3 salt and 2-3 sugar in a proportion of one teaspoonful to each quart of the mixture. Cook until the consistency of ketchup, stirring constantly. Pack hot into sterilized jars or bottles. Adjust rubber and cap—place the containers on a false bottom in a vessel of water sufficiently deep to reach almost to their tops and allow to remain at a boiling temperature for 25 minutes. Remove jars from the water bath and tighten the lids immediately.

QUIET IN PETROGRAD

(By United Press.) Petrograd, July 18.—Shooting in the city ended this evening. The government is arresting all mutineers. Nicholas Lenin, the agitator, charged with being a German spy, is a fugitive.

HYDE CITY MILL NOW PRODUCING CHARCOAL IRON

Plant Put In Operation Yesterday And Excellent Results Obtained By Management

BIG BENEFIT TO CLEARFIELD

The Hyde City steel plant began operations under its present new management yesterday. The furnaces were started during the day and a satisfactory run of merchant bar charcoal iron was made.

The Hyde City steel plant is now owned by a company of Bellefonte capitalists with Dr. Hennigh, of Bellefonte, as President. This concern purchased the steel plant properties outright last year and have made many substantial improvements in and about the plant.

A large force of workmen have been at work daily since the property was acquired and they now have one of the most complete and up to date steel plants in Central Pennsylvania.

In addition to the manufacture of merchant iron this plant will also manufacture a patent metal known as titan bronze the formula for which is a product of Dr. Hennigh's brain. The plant was running full force all day today and the management is highly pleased with the success they are already attaining.

We hope to give the new plant a more extended write up in the near future when everything is in full running order.

The operation of the steel plant will be of great benefit to Clearfield in a business way and the gentlemen interested have the heartiest wishes of all our people for their unbounded success.

Hot News Cakes From The Griddles of War

IMPATIENT WITH DENNAN-GOETHALS AFFAIR

Washington, July 19.—National impatience at the delay caused by the Goethals-Dennan row came out in the Senate today when a resolution was adopted demanding from President Wilson information concerning the fight. Increased irritation has been evidenced in Congress over the Goethals-Dennan affair for several days. The action of the Senate was largely due to the need of immediate shipping construction as the German U-boats have been very successful against allied shipping recently.

MICHAELIS TO MAKE SPEECH TODAY

London, July 19.—Chancellor Michaelis will bid for a German peace in his Reichstag speech this afternoon, according to a report received from Swiss sources today. They declared that the Chancellor's speech would conform strictly to the instructions of the German general headquarters and on the basis of the military situation now regarded as favorable to Germany.

PARDON FOR SUFFRAGISTS

Washington, July 19.—President Wilson today pardoned the 13 women party suffrage pickets sentenced to 60 days in the work house for picketing the White House.

Council Transacts Its Routine Business

Five Cases of Contagious Disease In The Borough of Clearfield

Borough council met in regular session in the council chamber last evening. President Fletcher being in the chair and eight of the twelve members present. Street Commissioner Graham made report of the activities of his street crew during the past two weeks.

Secretary Wilson of the board of health reported twenty notices to abate nuisances served during the past two weeks. Also that he had made an inspection of all hotels and eating places in the town and investigated all complaints made to the Health department. He reported under quarantine as follows: Scarlet fever, 1; diphtheria, 1; measles, 3.

Borough Solicitor Urey reported attitude of state highway department relative to state aid for south Second street repaving and spoke of complaints regarding blocking of Reed and Bridge street crossings by Pennsylvania passenger trains while express was being unloaded.

Mr. Hagerty of the finance committee reported that his committee had invested \$3400 of 1916 improvement bonds and had amount of same credited to the Equipment and Fourth street funds.

Borough Engineer Hess reported on sidewalk grade on Seventh street and stated that it would be necessary to place steps on this street similar to those on East Pine street.

Matter of Anderson sidewalk on East Pine street taken up and Contractor Ferguson stated that he would build same for Mr. Anderson within the next two weeks.

S. E. Driggs was present and stated that the plans for his movie theatre on Third street required the removal of the Zentmyer residence property to the Locust street property line and this would necessitate the extension of the present baywindow on the house over the property line. He asked permission of council to extend this window over the line temporarily and permission was granted on condition that Mr. Driggs sign an agreement and give bond for the removal of same just as soon as he gets possession of the property, in the meantime said obstruction not to extend to the sidewalk line.

E. Russell Williams asked for a sidewalk grade on Eighth street and curb grade on Dorey street and as the grade at this point is in dispute the matter was referred to borough engineer for report at next meeting.

Oregett & Buchanan asked permission to erect a canopy in front of their garage on Third street to extend out over the sidewalk, same to be built onto the garage and supported from the building.

After some discussion permission to erect the same under the direction of the highway department was unanimously given.

Matter of increase in wages of borough teamster was taken up and it was decided to increase his wages \$5.00 per month, making same \$60 per month from this date.

Following many complaints the street commissioner was directed to serve notice on J. C. Barclay, Fred Rollin and Laura Hackman to raise their William St. sidewalks to grade and direct Chas. Feister to lay a new sidewalk in front of his property on said street.

There being no further business council adjourned to meet Wednesday evening August 1st.

FOR SALE—Team of light sorrels. Will make great delivery team as they have been used on a milk wagon. They are well matched and are thoroughly broken. Am now using truck and will sell team cheap to quick buyer. G. M. Clute, Curwensville, Pa. J-19-6tp

Method Selected Will Be Fair To Every District And The Drawing Will Be Made Tomorrow For Sure

PROGRESS WILL PRINT THE NUMBERS

Washington, July 19.—The War Department today announced the system of lottery that will fix the order in which America's millions must step forward for service. The lottery may occur probably tomorrow.

The entire registration rolls of more than 9,650,000 names will be drafted and the order of the examination determined at this drawing. The lottery will consume about one hour. At the end of the drawing every man on the rolls will know the order of his liability for service.

Only one thousand names will be drawn and ten others to fix the order of the "one thousand."

The one thousand names are printed on small squares of paper, black on one side. This is the method as explained in a pamphlet issued by the Provost Marshal General today. The drawing is made to determine the order in which men must appear for examination in their district. Inasmuch as there are more than nine thousand in the largest district and only 120 in smallest districts the numbers drawn must determine the order in the small districts as well as the largest.

First the numbers from 0 to 9 inclusive will be drawn to determine the order of the "one thousand" group on the master list. Next a drawing of numbers from 1 to 1,000 to determine the order of the numbers inside of "one thousand."

For instance if the drawing of the one thousand group results thus 8, 5, 0, 2, 4, 3, 1, 6, 9, 7, that determines the order of the group of "one thousand." Then if the drawing of the one thousand should be this way 876, 84, 500, 1, 43, etc. through the one thousand names, the first name on the master list would be 8,000 plus 876 or 8,876 second 8,084 and 8,500 etc. After the "eight thousand" has been added to the number of the one thousand list in order, then the names of the five in the one thousand group drawing are picked up and applied in the same way. Then the names immediately following the eight thousand would be 5,000 plus 876, and so on throughout the list. Although only 1,010 numbers are drawn, districts with 10,000 registrants will be applied in the same way. It can be used in any district irrespective of the number of registrants. Starting at the top of the list the numbers that do not apply in that district may be ignored and you may proceed down the list until all the names are picked. The men holding those numbers are the first to report in that district.

The second man following on the list is next and so on down the list.

Officials of the War Department asked the registrants to try to imagine a long single column of 11,000 numbers and look down the list ignoring all numbers except those in his district.

The registered man in order to find his comparative position in his district will look at the numbers in his district.

After the lottery the Provost Marshal General send to each district sheets showing the order of examination. By that time the district will have been notified of the numbers of men they must furnish to the army.

They will call for examination twice that beginning at the top of the list and continuing the examination until the quota has been made up.

Entered at Post-Office at Clearfield, Pa., as second-class matter.

THURSDAY EVENING, JULY 19, 1917.

The day of the week has arrived for Crate to get his regular weekly advertising.

Waiting for the drawing of the numbers is a great deal like the suspense of last November though the outcome will be somewhat more desirable.

Yesterday we intended to publish the Red Cross figures for the principal cities of Pennsylvania but power facilities interfered with our plans. We present them today.

According to the morning papers the drawing will take place at 10 A. M. tomorrow. Probably switched from the evening so the draft would not catch a lot of fellows in their nighties.

About a year ago Louis Raemakers drew a picture of the Kaiser and the Crown Prince standing on a mound of skulls, and the son saying: "Father, this hill is not yet high enough for us to see Verdun." Since then the Crown Prince has added greatly to the height of the mound, but he cannot yet see Verdun. For seventeen months he has been sacrificing Germans in front of Verdun, and he long since ceased to make any progress; recently he has lost ground.

It begins to look as though the young men of this vicinity have only about twenty-four hours left in which to volunteer their services to Uncle Sam. Many of them do not yet understand that no man between the ages of twenty-one and thirty will be allowed to volunteer after his number is drawn and this drawing will in all likelihood take place tomorrow. There is absolutely no stigma or disgrace to be attached to being conscripted under the present conscription law but many advantages accrue from volunteering. The volunteer may take his choice of army, navy, marine, signal corps or any other branch of the service and this choice is a real privilege. On the other hand there are many young men who have started in professions and business who are going to take a chance on being conscripted rather than sacrifice their business. If their number is among the first drawn they will willingly go and not make any attempt to be exempted on business grounds.

The announcement of the method of drawing and deciding on what numbers representing registrants will first answer the call of the Exemption Boards may appear to the layman as vague and hard to understand, as indeed they are. Those who do not care to undertake the task for themselves may rest assured that their number will be determined for them and served up, it you please, by the newspapers within a short time after the drawing. The Progress will print the drawn numbers tomorrow if the drawing is actually made and there is every indication that it will be. The numbers printed will be the ones that will answer.

Result of Saving

Daddy's Bedtime Story—

DUMMLING WENT TO COURT

She Burst Into Loud, Long Laughter.

[Adapted from Grimm's Fairy Tales.]

WHEN the children had finished supper daddy came into the nursery and asked if anybody wanted to hear a story. Jack and Evelyn both clapped, so daddy began the golden goose tale: "Dummling was supposed to be stupid. But the fact was he had enough generosity about him to share his poor food with a little old man of the woods. When the old man fixed it so Dummling found a golden goose under a tree it seemed as if Dummling was on the way to good fortune. And he was, as daddy will now tell you.

"The strange thing about an enchanted goose is that anybody who tries to pluck one of its wing feathers sticks fast. So Dummling soon had quite a train behind him—three girls, a parson, a clerk—and then they met two workmen.

"They had two great axes over their shoulders, and the parson cried out to them to cut him loose. But hardly had they laid hands on him when they stuck fast as two postage stamps. On they had to trudge just like the others.

"This made seven of them trailing along after Dummling and his goose. "Just then it entered Dummling's head that he would like to see a little something of the world before he went home. So, with his strange partners behind him, he at last came to a big city where lived a king who had an only daughter.

"Now, this princess was of a thoughtful, moody turn of mind. It had been years since any one had been able to make her laugh. This worried her father, who wished his daughter to be merry and happy. So he gave it out to the world that any one who made the princess laugh might have her for a wife.

"Of course a great many young men had tried for her. But they had only ended by being silly. But this is just where Dummling proved he wasn't as silly as most folks had always thought him. The minute he heard about the gloomy princess he ran with his funny train and marched up and down before her windows.

"Now, it happened that the moody princess was looking out of the window. When she saw three mud splashed girls, a gouty parson, a venery clerk and two big workmen all hanging together, all treading on each other's heels, tripping each other up and all stuck fast to a boy and a gold goose, she burst into long, loud laughter that fetched the king to her side.

"Then Dummling claimed her for his wife, and the king let him have her. So Dummling, the stupid, was heir to a kingdom and lived long and happily with her ever after."

TAKE SALTS FOR THE KIDNEYS IF YOUR BACK HURTS

We Should Drink Lots of Water and Eat Less Meat, Says Noted Authority on Kidney Disorders

Recommends a Spoonful of Iod Salts In Glass of Water Before Breakfast to Stimulate Kidneys and Eliminate the Uric Acid

Uric acid in meat excites the kidneys, they become overworked, get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy, the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys stop you must help them finish off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also put from any pharmacist four ounces of Iod Salts; take a tablespoonful in a glass of water before

breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Iod Salts is inexpensive, cannot injure, makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Iod Salts to folks who believe in overcoming kidney trouble while it is only

HALF A CUP OF MILK

"Milk a Mickle Makes a Muckle."

Half a cup of milk—whole, skimmed or sour—a seemingly trifling matter—hardly worth the trouble to keep or use.

In many households quite a little milk is wasted—left uncovered in glasses—regarded as useless because the cream has been skimmed off—allowed to sour—poured down the sink or thrown out.

Now, if every home—there are 20,000,000 of them—should waste on the average one-half cup daily, it would mean a waste of 2,500,000 quarts daily—912,500,000 quarts a year—the total product of more than 400,000 cows.

It takes a lot of grass and grain to make that much milk—and an army of people to produce and deliver it.

But every household doesn't waste a half-cup of milk a day? Well, say that one-half cup is wasted in only one out of a hundred homes. Still intolerable, declare government experts, when milk is so nutritious—when skim milk can be used in making nutritious soups and cereal dishes—when sour milk can be used in bread-making or for cottage cheese.

Deaf Men Found to Be Best Workers in Noisy Factory

The war is developing new labor conditions and problems. Probably the most unique instance which has come to light is contained in a request made of the labor bureau of the Ohio branch of the national defense council by an Ohio manufacturer, says the Columbus Dispatch.

"I want from twenty to thirty deaf men. If they are deaf and dumb both, it won't make any difference." This was the request made by a big Ohio manufacturer. "I will pay them from \$2.50 to \$3.50 per day and give them steady work. I want to put them to work in one branch of my factory where the noise is so great that it is impossible to keep hearing men on the job. I tried a couple of deaf men and they have proved so successful that I want a score or more of them."

TWO STARS HAVE NEVER BEEN WITH WINNING TEAM

Joe Jackson and Walter Johnson Have Not Had Chance to Break Into a World's Series.

The two stars who are active in the game today and who have never been with a winning team are Walter Johnson, for years conceded to be the best pitcher in the American League, and Joe Jackson, the hard-hitting outfielder.

The case of Johnson is much the same as that of Rucker. Even when the Senators were down among the last clubs in the American League Johnson pitched a caliber of ball that made him stand out more prominently and above the pitchers who were on winning teams. It has often been remarked that had Johnson been with the Cubs, Giants, Tigers or Athletics

Joe Jackson.

when those teams were winning pennants he would have established some pitching records that would have stood for all time.

And Joe Jackson has been prevented from playing in a world's series because he happened to be under contract to the hard-luck Cleveland team up to last year. There is still a chance for Jackson realizing his ambition, as he is now with a team that has been in the thick of the pennant race for two seasons, and Joe should be good for several more years before he starts on the path which all players eventually travel—backward.

As for Johnson, there are at least four clubs in the American League that are so far ahead of the Senators that Walter will have little opportunity of getting into a world's series unless he is disposed of to another club, or unless Clark Griffith becomes a miracle man and puts over an unexpected winning combination.

Japanese Form Unions and Win Demand Higher Wages.

Agricultural and commercial unions are forming in many parts of Japan. One of the most noticeable results of the European war is the advancement in geographical and commercial knowledge acquired by the working people from the newspapers. They have improved to a remarkable degree in information about the rest of the world.

Prior to the war, the laboring classes knew almost nothing about the rest of the world. Due to the enterprise of the Japanese journals in chronicling the progress of events, the entire population is fully informed.

The Japanese people have become cosmopolitans, says the East and West News. They are contented, because plenty of work offers; but they have learned about the wages paid in other parts of the world for labor similar to theirs and are very likely, after the war, to insist on higher wages. Opinion is general that skilled workmen in Japan will insist on better remuneration.

"Fore!" "Thirty Love!"

You Followers of the Two Sports In Which the Above Terms Are Used: This News is For You!

President Wilson advises that sports and other relaxations go on as usual. We can help you carry out his wishes by furnishing the material.

Farm Dialogue No. 1

"Well, I guess that we'll that threshing." (Farmer and hired man go to threshing machine and giving machine a start are started by a loud noise in the vicinity of the crank mechanism that runs the screens.)

"What's that?"

"I dunno, let's see."

"There it is, that crank shaft is broken, just when I was offered a good price for my grain for immediate delivery. That's going to cost me money waiting for the new part and the price of grain is sure to drop in the meantime."

"Say, boss, have you heard about that Favorite Thresher that Murphy sells over in Clearfield? They tell me that the screens on that machine are run by an eccentric action, and there's never been known to be any delay on account of one breaking."

"Well, I guess it's up to us to hop into the car and see Murphy. We can leave the car on Third street and go right around to his office."

News of the Day Culled From Various Sources

Enabling Our Readers to Keep In Touch With The Outside World

WILSON TO SUPPORT ANTHONY SUFFRAGE BILL

Washington, July 18.—The Anthony suffrage amendment may be introduced in congress in the near future as a war measure with the backing of President Wilson. It was stated tonight by J. A. H. Hopkins, New Jersey, former Progressive national committeeman and husband of one of the imprisoned suffragists, following a conference with the president today.

ONE-CENT STAMP TAKES MAGAZINES TO FRONT

Unaddressed and Dropped in Mail Box Assures Delivery to Soldier

Washington, July 18.—Magazines and newspapers bearing 1-cent stamps hereafter may be posted, unwrapped and unaddressed, by persons other than publishers, and will be forwarded by postal authorities to American soldiers and sailors in Europe.

In announcing today plans for gathering reading matter conveying home news and fiction to the boys abroad, Postmaster General Burleson suggested that magazines print the following in the upper right-hand corner of their front covers:

"Notice to the reader: When you have finished reading this magazine, place a 1 cent stamp on this notice, hand same to any postal employee, and it will be placed in the hands of our soldiers and sailors at the front. No wrapping—no address."

PIHUA MAN CHOSEN FOR AMBASSADOR TO JAPAN

Roland S. Morris Acceptable to the Government at Tokio

Washington, July 18.—Roland S. Morris, of Philadelphia, has been chosen for appointment as ambassador to Japan to succeed the late Ambassador Guthrie. It is understood he is persona grata to Japan and that the nomination will go to the senate shortly.

It is understood Vance C. McCormick, the Democratic national chairman, was offered the post at Tokio, but declined and recommended the appointment of Mr. Morris.

SAYS GUARD IS NOT PREPARED FOR SERVICE

Lieutenant Colonel Robert M. Brookfield, of the Third Infantry, declared yesterday that the National guard required at least five months' training in this country, followed by seven more abroad, before the men would be fit to send into the first line of trenches. Colonel Brookfield also said that the Federal government should invite the British and French officers who have been invalided home to come to this country and take charge of the general plan of training in the southern concentration camps.

WOMEN INSIST ON SERVING OUT TERMS IN JAIL

Suffragists Oppose Payment of Fines By Husbands or Relatives

Washington July 18.—After a day in prison, the sixteen suffrage leaders announced tonight that they were determined to remain in confinement rather than allow their husbands and relatives to pay their fines. Yet their friends are doing their utmost to force an appeal or get the administration to exercise clemency.

John A. Hopkins, Democratic national committeeman from New Jersey saw the President today and later conferred with Dudley Field Malone, counsel for the women. It is expected that an appeal will be taken tomorrow.

CONFISCATION FEAR FORCES RECORD LIQUOR WITHDRAWAL

Washington, July 18.—Liquor dealers alarmed at the prospects of the government seizing the vast quantities of distilled spirits in bond, are withdrawing whisky from bonded warehouses at a rate never before equalled. Within 10 days more than 10,000,000 gallons have been withdrawn and the ratio bids fair to be continued.

The whiskey is placed largely in revenue officials believe in stock in retail establishments. Withdrawals have been almost exclusively from warehouses in Kentucky, Pennsylvania and Maryland and the Cincinnati and Peoria districts.

As a consequence internal revenue receipts this month set new records, the total for the first 17 days being approximately \$7,500,000 more than last July.

FINISH FIGHT INITIATED BY GENERAL GOETHALS

But Shipping Tangle Can't be Prolonged Over Next 48 Hours

Washington July 18.—After a two

NOTICE TO BIDDERS

The Board of Directors of the School District of Clearfield Borough hereby gives notice that it will receive sealed bids up to 7 o'clock P. M. of the 14th day of August, 1917, for furnishing coal for the school year 1917-1918 at the following school houses in the borough of Clearfield:—

New High School Third Ward
Central Grammar (Old High School) Fourth Ward.
Leonard Graded Reedsville

Bids will be received for the supply of any one or more buildings or the supply at all the buildings.

The successful bidder will be required to give bond with security satisfactory to the Board, in an amount sufficient to cover the contract, conditioned for the faithful performance of his contract.

The right is reserved to reject any or all bids.

Clearfield Borough School District, by A. D. BIGLER, President.

Attest: W. SCOTT PIPER, Secretary.
J-19, 26, A-2.

TRACKWALKER SUSTAINS A CRUSHED FOOT

E. Vallmont, a track walker on the River line of the New York Central railroad, had a part of one foot crushed off yesterday afternoon. The accident occurred at Mowrey. Vallmont attempted to board a moving freight train, and missing the car slipped his leg slipped through to the rail and the car wheel crushed his toes off.

He was brought to the Clearfield hospital in an automobile last evening where it was found necessary to amputate a portion of the foot. He suffered severely from shock and loss of blood but is now recovering satisfactorily.

FAIR DEAL FOR FARMERS

Washington, July 19.—Special Correspondence.—A measure that will command the attention of the farmers of the west has been introduced in the Senate by Hon. Charles Curtis of Kansas. It directs the Secretary of Agriculture to appoint at each railroad terminal or city in the United States a grain and hay inspector who shall inspect, grade and tag all arrivals of grain and hay. A copy of the inspection shall be placed inside of the car, and another copy mailed to the consignor. The Secretary is directed to establish grades for grain and hay and to make all the necessary rules for administering the act. The expenses of the work are to be paid by fees collected by the inspectors, which are set forth in detail in the bill. Senator Curtis has designed his bill to meet the discontent among farmers because of the lack of proper standards for the grading of grain, and he will endeavor to secure action upon it as soon as the press of war legislation will permit.

Not a Corn or Callus on Feet

Apply few drops, then lift them off without pain.

A noted Cincinnati authority discovered a new ether compound and called it frezone. A dit now can be had in little bottles for a few cents from any drug store.

You simply apply a few drops of frezone upon a tender corn or painful callus and instantly the soreness disappears, then shortly you will find the corn or callus so loose that you can lift it off with the fingers.

No pain, not a bit of soreness, either when applying frezone or afterwards, and it doesn't even irritate the skin.

Hard corns, soft corns or corns between the toes, also, toughened calluses, just shrivel up and lift off so easy. It is wonderful! It works like a charm. Try it!

Women should keep frezone on their dressers and never let a corn ache twice.

hours' debate with William Denman, chairman of the shipping board, Major General George W. Goethals, general manager of the Emergency Fleet corporation, said tonight when asked if he contemplated handing in his resignation: "I am a soldier."

This was taken to indicate that the General would not resign in any circumstance under fire and that the fight was on to the finish.

Situation Can't Continue
The chances of an adjustment which might keep both Mr. Denman and General Goethals in the service was considered much brighter than it was yesterday. The only thing that seemed certain today was that the impossible situation confronted when the shipping board adjourned tonight could not be continued for another 48 hours.

CURWENSVILLE

The Kittleberger property on Gramplan road is being re-roofed and other repair work done.

David Reid, who was a recent visitor with his daughter, Mrs. J. G. Fullerton, left for York Pa., for a visit of several days with his daughter, Mrs. Walter Gray.

Miss Edith Hart left for Endicott, N. Y., where she will spend the summer.

We are glad to state that Mrs. John McLaughlin, who has been seriously ill, is slowly convalescing.

Mr. and Mrs. James Bloomfield and two children of Altoona, visited the latter's sister, Mrs. Wills Manaval on South Side.

Misses Inez Bloom and Laura Hudson visited in Clearfield yesterday.

William Schurr and son Wallace, Mr. and Mrs. George McElho and child and Harry Short, of Home, Indiana county, who were here to visit the former's son, Reuben Schurr, of Ridge Avenue, who has been confined to his bed with rheumatism and heart trouble for sometime, have returned to their home, accompanied by Mrs. William Schurr, Reuben's mother, who has spent the past week with her son. It is hoped he may soon be restored to his usual good health.

Mrs. Lydia Grove, mother of Mrs. Orvis Thompson, and Miss Ardine Fleming, both of Williamsport, after several days visiting the home of Orvis Thompson and wife returned home Tuesday.

John Lucas of Curwensville and Miss Blanche Holt of Clearfield were united in marriage by Squire John A. Dale Monday evening, July 16.

Don't forget the festival on the lawn at the Presbyterian church this evening.

Gerald Murphy, son of Mr. and Mrs. A. J. Murphy, former residents of this place, now of Pittsburg, visited in town between trains yesterday.

Wm. C. Wolf, of Maryland Field Artillery, is home for a few days before leaving for camp at Anniston, Alabama, in preparation for service in France.

GRAMPIAN

Friends Ladies Aid met at the home of Mrs. Wm. Norris Wednesday.

Mr. and Mrs. E. A. Spencer returned on Monday from an extended auto trip, having made a total of over one thousand miles without any serious trouble or delay at any time. Miss Eva Spencer accompanied them as far as Akron, Ohio, and stopped there with her sister, Mrs. Thornton Farwell. Miss Pearl Layman, of Ashland Ky., accompanied them home to spend a couple of weeks with them.

Mrs. Russell Thorp is on the back list, having an attack of appendicitis.

DANGERS OF PRESS CENSORSHIP

Although the Cruger murder case in New York City is a local affair in one sense, it has attracted nation-wide attention because of the demonstration of the need of public surveillance over bureaucracy. The disappearance of the Cruger girl was to be passed over without attention by the detective bureau for reasons to be disclosed. A woman lawyer, through friendship for the family, worked on the case and finally discovered the remains of the murdered girl. The city has since forced a sweeping investigation of the detective service.

But what would have been the outcome if New York City had established a press censorship such as the national administration undertook to establish? Under such a system of dictatorship over the press, all the facts would have been suppressed upon the plea that publicity would interfere with the capture or conviction of the murderer. The efficiency, or worse, of the detective bureau, would have been concealed by the bureau itself.

The more one thinks of the harm resulting from suppressing a free press, the more incredible it seems that any national administration could have even asked for such broad powers as were included in the proposed legislation.

Prof. W. P. Weaver of State College will talk on "Community Co-operation" in Susquehanna Grange hall, Saturday evening, July 21st.

Patrons of Susquehanna and other Granges will please make an effort to be present at this meeting. The public is cordially invited to attend the meeting being held in open session.

Master, Peter Gearhart Sec'y. T. L. Way, Lecturer, Mrs. Wilson McClure

Two Articles Specially Priced for Saturday, of Unusual Interest to Women.

These Prices Are Of Extraordinary Interest To Women Who Have An Eye To Thrift. Both The Skirts And The Toweling Are Out Of The Ordinary

This is an answer to the call of economy. These skirts are being sold at prices that do away with our usual margin of profit but they're getting too familiar to us and we insist that they move out.

Made of gabardine and linene in full sizes mostly of the plain conservative patterns.

The workmanship is out of the ordinary and the wide hem at the bottom is worthy of particular note. Have side pockets. Note the low prices we're offering them to you for.

\$1.75 Skirts now selling for \$1.28
\$1.50 Skirts now selling for \$1.18
\$1.00 Skirts now selling for \$.87
\$.75 Skirts now selling for \$.63

300 YARDS 16 INCH TOWELING, 6c YARD

This is an unusual price on this toweling for, bought on today's market it would sell for 10 cents; we've been selling it for 8 cents; on account of our large purchases we're offering it to you at 6 cents the yard. Fairly heavy cotton; will absorb moisture as well as any cotton. Has red or blue stripe for your choosing.

ROSS & WOODS,
Market Street, Clearfield, Pa.

JUMP FROM BED IN MORNING AND DRINK HOT WATER

Open sluices of system each morning and wash away the poisonous, stagnant matter, says authority.

A glass of hot water with a teaspoonful of limestone phosphate in it, drank each morning before breakfast, keeps us looking and feeling fit.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store, which will cost but little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

LAWN FETE

The Sunday School chorus of the Lutheran church will hold a Lawn Fete at the home of Miss Lillian Ericson

W. Third Avenue, next Thursday evening, July 19th if the weather is favorable. Strawberries, ice cream, cake and coffee, 15 cents.

LOW SHOE DAY

Saturday, July 21st,

On Saturday, July 21st, will be our Low Shoe Day Sale. Every pair of Men's, Women's and Children's Low Shoes and Pumps will go on sale at the above mentioned prices. Just think of it! You can buy on this day any pair of Men's Oxfords in the store at \$3.00. Any pair of Women's Low Shoes or Pumps at \$2.00. Any pair of Misses' or Children's Low Shoes at \$1.00. Have you ever been made such an offer? NO. We have marked the price on these Low Shoes so extremely low that it will move them quickly. We must have the room for our Fall Shoes that are arriving daily.

LYTLE BROS.

Street,

Clearfield, Pa.

To The People Of Clearfield And Vicinity:

I have fitted over 500 people in the last ten months, among these 500 people I have 65 patients which other great opticians were unable to correct the refraction.

I have treated patients from Philadelphia, Pittsburgh, Johnstown, Phillipsburg and other cities who came here to Clearfield after being unable to have their eyes properly treated.

I have been practicing over forty years as an eye specialist, if you are wearing glasses and your eyes smart or you are subject to headaches, then your glasses are not right.

You can see me every Saturday at the Allegheny House.

You can see me by appointment any day during the week free of charge.

M. BONE

EARNEST SUPPORT OF REPUBLICANS

In the words of Congressman Moses P. Kinkaid of Nebraska the purpose of the food bill is "to win the war," said as the Commander in Chief of the Army and Navy, who, Mr. Kinkaid admits, must know more about what is needed than he does, had asked for the legislation, he gave it his support. "This is not a time," declared Mr. Kinkaid, "to let any consideration, personal or political, stand in the way of our fullest and heartiest cooperation with the President." In giving voice to those sentiments Mr. Kinkaid expressed what is in the minds of the Republican party generally, both in the Senate and House. The biggest obstacles that have been put in the path of needed war legislation have been placed there by Democrats, as witness the determined fight against the food bill that has been waged by leading Democrats of the Senate.

PROMINENT BRISBIN

Mrs. Townsend Stott died Monday afternoon July 23 at her home in Brisbin, Pa., after a short illness. She was aged 52 years and leaves to mourn her death her husband and the following children: Verna Williams, of Grampian; Grace Dallen, of Houtzdale and Caroline, Elizabeth and Paul at home. Also her father William Goss and the following brothers and sisters: Mrs. D. M. McHenry, of Haslings, Frank Goss, of Maryland, Elmer Goss of Twin Rocks, Mrs. J. H. Chase, of Clearfield, Harry Goss, of Colver, Jackson Goss, of Middletown, Mrs. Howard McConigal, of Winburne and Mrs. Steve Ross, of Johnstown. Mrs. Stott was a very sweet, Christian woman, a member of the Baptist church 28 years and was greatly beloved by everyone who knew her.

The funeral was held at half past one at the Baptist church Wednesday afternoon, attended by a large number of relatives and friends who were anxious to pay their last tribute of love and respect to her who was always ready to help them in time of stress and sickness.

Catcher Traverser of the Braves has had to give a continuous performance in backslapping since Hank Gowdy joined the colors.

NOTICE OF DISSOLUTION OF PARTNERSHIP

The partnership between Mr. Alfred Graham and Mr. Henry Hoover, both of Clearfield, Pa., being in the lumber business under the firm name of GRAHAM & HOOVER, has been dissolved this 16th day of June 1917. Mr. Graham has bought out Mr. Hoover entirely and is now sole owner of the business.

ALFRED GRAHAM

CHICHESTER'S PILLS
For Biliousness, Indigestion, Headache, Stomach Trouble, Constipation, etc.
This is the only medicine that will cure all these troubles. It is a gentle laxative and does not hurt the bowels. It is sold in every drug store.

MANY CORN SUFFERERS MADE HAPPY

New Oil Treatment Brings Relief To Thousands.

It is said that New Oil Treatment is the only cure for corns. You don't even have to take off your shoe to get relief. Just pour a few drops of the oil on the shoe over the corn and it goes creeping and crawling down into the corn, and the pain disappears. This is the only cure for corns. It is sold in every drug store.

DUAL EFFECT OF NEGRO MIGRATION

Negro associations are passing resolutions advocating a wholesale emigration of their race from the South to the North. The injustice under which they suffer in the southern states through the denial of their civil rights is given as the moving cause of this determination to migrate—and if the exodus takes place upon any extended scale its effect will be great, both from an economic and a political angle. It will deprive the southern states of the plentiful and cheap labor which they have so long enjoyed for the production of their staple crops; and it is very likely to affect the political power of those states, as well. For instance, under the present regime in the south, the negro is counted in the census and thus made a basis for representation in Congress and in the electoral college. He is, however, denied the right to vote; and swollen ranks of southern Congressmen and electors are the result. The next census will be taken in 1920 and upon it will be calculated the Congressional and electoral strength for the states. If thousands of negroes come north, some southern states will suffer diminution of population and, in consequence, of political strength; while some northern states will proportionately profit.

TO SETTLE LONG DISCUSSED PROBLEM

In order to provide a basis for the final settlement of the question of diversion of water for power purposes from Niagara Falls, which has been vexing Congress for so many months, Representative George F. Foss of Illinois, believes the Secretary of War should be authorized to make a thorough

investigation of the entire subject. When the matter was before the Committee on Foreign Affairs, of which Mr. Foss is an influential member, he urged that that course be pursued, and he is particularly pleased that his ideas were adopted by the conferees, and will appear in the law as finally written. Mr. Foss says there has never been an investigation of the whole subject of water diversion at the Falls. At the next session of Congress Mr. Foss hopes the report will be available, and Congress can then take up the matter intelligently.

BITS OF WISDOM

New York Times—There is something the matter with a censorship that withholds from publication perfectly innocent news dispatches, that even would be most salutary if published here, while permitting injurious and treasonable falsehoods to be sent out from the country all over the world.

Wall Street Journal—You may as well do your bit cheerfully, as you'll have to do it anyway.

Boston Herald—Many thanks for the legislation that permits a newspaper to print a picture of the flag without becoming thereby a lawbreaker.

Woodsfield (O.) Republican—Teddy and his division can truthfully say "He kept us out of war."

Herman Tilger, of Demmon, Texas is visiting his mother, Mrs. Rachel Tilger at the home of the Misses Eliza and Nancy Waring at Graham Station.

THE SULKER

By GEORGE M. ADAMS.

If there is one man that every other man feels like heaving a brick at it is the man who Sulks—doggedly, foolishly, and blatantly Sulks. For the Sulker not only refuses to do anything himself but he throws a wet blanket over the good intentions and desires of everybody about him.

Few of us there are who do not Sulk at times. But of all the nonsensical nonsense Sulking takes first place. If every Sulker could but sit by long enough for those interested in him to dig a hole in which to put him, he would come out of his trance mighty quickly, for if there is anything that a Sulker hates it is nonsensical and utter abandonment.

Here is a little suggestion for the riding of this world of its Sulkers: First, never Sulk yourself—he too busy. Second, whenever you see a Sulker, forget him and leave him—the Sulker is never happy alone.

Why "Jeopardy" Left.

Hudson Maxim, inventor of explosives, tells this shivery anecdote in a volume called "Dynamite Stories Just Published." "We once had a servant girl whom we nicknamed 'Jeopardy' because she could not be prevented from pouring kerosene directly from the can upon a lighted fire. One day Jeopardy left us very suddenly, and she never came back. We are sorry she left, as Jeopardy was a good girl. It developed that she had chanced to find a fifty-pound case of dynamite sticks in the woodshed, which she had been using to start the fire in the kitchen stove. Sometimes dynamite will work itself off for such a purpose, but is not a safe thing and cannot be depended upon merely to burn. It was during one of these intervals that Jeopardy went."

NEW YORK AND PENNA. ARE SLACKERS

Washington, July 19.—With only two states—New York and Pennsylvania—yet to be heard from, Provost Marshal General Crowder today declared, "I am confident the drawing will be held tomorrow."

ON THE SCREEN

THE PARSON OF PANAMINT

Special At The Globe Today
Millions have read this wonderful story, published first in the Saturday Evening Post, and upon which the Pallas Pictures production of the same name is based. Dustin Farnum as "The Parson of Panamint," has literally immortalized by his screen characterization, one of the most interesting figures in the history of fiction of the great west. The story centres in one of the mushroom mining towns of Nevada of forty years ago. The characters are lovable for their sincerity, their earnestness in trying to conform to the ethics of city government, one of which necessitates a parson. And Dustin Farnum as Philip Pharo, is chosen to purge on Sundays the evils of the week.

The elements of human interest, of history, of tragedy and comedy, as related by "Chuckawalla" Bill form the foundation of a very unusual and wonderful story of the West.

The Wise Mother.

Every mother should by tact and kindness try to bring out the best that is in her children, for she and she alone understands their temperament. Of course they must have time for romping and playing, for no child can be truly happy unless he has a full share of play, but his good times should not by any means intrude on his studies.

A wise mother is she who keeps in touch with her children's school work, who calls on their teachers occasionally for a friendly chat. By so doing she knows to a certainty how her little ones are progressing, and if they lose enthusiasm she encourages them to better efforts.

Children who are started right at home always make a good showing in school, and the mother who hopes to see her child advance along educational lines must, without a question, co-operate with his teacher.—Pittsburgh Dispatch.

Some Wrestler.

"I see they've stopped boxing."
"Yep."
"I hope they won't stop wrestling."
"Why?"
"If they do I'll have to give up my art. I have to wrestle with it every day."

Eddie Cicotte, the White Sox hurler is the only American league veteran pitcher standing up under the strain this season. He is twirling his eleventh season in the big show and looks good for several more years of major league pastime.

Hon. G. W. Bell, of Bell's Landing, was a business visitor to the county seat today.

Joseph E. Reitz, one of DuBois' leading business men, was a Clearfield visitor today.

Mr. and Mrs. R. D. Hyde and daughter Audrey left today on an extended auto trip to Detroit, Mich., and other Michigan cities. They took with them a tent and provisions to camp along the way.

R. W. Zirm, of New York, is spending a few days with friends here.

Mr. and Mrs. Lavinia Beebe and Miss Sheets of Philadelphia, motored to Clearfield and are the guests for the day of Mr. and Mrs. G. Webb Stillingford at their home on Old Town Road.

ICE CREAM FESTIVAL

There will be an ice cream and cake festival at the Mt. Joy Grange Hall on Friday evening July 20. Everybody invited.

New Isinglas Backs For Auto Tops

Stop That Dust From Coming In On Your Back. I can Replace That Broken "Back-Sight" In Your Car

You can now do away with the annoyance of dust, drafts and that "old car" appearance of your machine, caused by the isinglass being broken out.

Bring your car down and I can fix it up in a short time.
